

Eames Walnut Stools

- Made of solid walnut, these stools designed by Charles and Ray Eames can be used anywhere, alone or in groups, and are beautifully versatile.
- The centre section of the Eames walnut stool is done in three distinctively shaped profiles. Choose the one you like, or choose two or three - the same or different.
- Each stool is made of turned walnut; pick it up - you can tell instantly that it's solid wood.
