

Eames Wire Based Tables

- The lightweight Eames wire-base tables are practical and versatile in homes, reception areas, lounges—anywhere you need a small surface that makes a big statement.
- The base consists of two U-shaped steel rods attached to the top, with cross members for added stability; available in powder-coat white, black, or chrome. The top is 13 layers of Baltic birch plywood sandwiched between wood veneer or high-pressure laminate in black or white.

Wire Based Table
