

Compass™ System

Faced with the unpredictable nature of healthcare, it's good to have adaptability on your side. As treatment and care processes continually evolve, the challenge is to keep facilities relevant, since most facilities were not designed to adapt. A system of interchangeable components for hospital and outpatient facilities, Compass can be used to create patient rooms, exam rooms, caregiver work areas, and other clinical spaces.

Designer

Gianfranco Zaccai

Benefits

- Components easy to assemble, remove, rearrange, and refresh
- Seamless wrapped surfaces and overlapping tiles help control the spread of infection
- Intelligent infrastructure manages utilities, increasing speed to market

Warranty

12-year warranty

Key Features

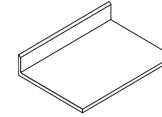

- 1. Infection Prevention**
Design features including sloping sides, a splashguard, an offset drain, and a custom faucet, as well as shingled tiles and solid surfaces with radius edge and back cut reduce splash, make cleaning easier, and control the spread of infection.
- 2. Flexible Components**
Compass components are easily assembled, removed, rearranged, and refreshed without demolition, and utilities can be easily accessed, added, or modified.
- 3. Linen Cart**
The hard-working soiled linen cart blends in with the environment.
- 4. Intelligent Infrastructure**
The infrastructure manages utilities, whether pre-wired/pre-plumbed, stubbed out, or chased from the ceiling.
- 5. Glove/Paper Towel Storage**
Slim profile cabinets put supplies where they can be easily accessed to support the work of caregivers.
- 6. Seamless Surfaces**
Tiles and components are wrapped in Durawrap™, resulting in a seamless and durable surface that's easy to clean.
